Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:

Prerequisites:

Vsebina:

Študent izvaja klinično delo na klinikah-oddelkih po izbiri. Izbira lahko med sledečimi klinikami-oddelki:

- Oddelek za abdominalno in splošno kirurgijo
- Oddelek za žilno kirurgijo
- Oddelek za travmatologijo
- Oddelek za torakalno kirurgijo
- Oddelek za urologijo
- Oddelek za plastično in rekonstruktivno kirurgijo
- Oddelek za nevrokirurgijo
- Oddelek za ortopedijo
- Oddelek za kardiokirurgijo
- Oddelek za anesteziologijo, intenzivno terapijo in terapijo bolečin
- Otroška kirurgija
- Urgentni center
- Oddelek za revmatologijo
- Oddelek za nefrologijo
- Oddelek za dializo
- Oddelek za gastroenterologijo
- Oddelek za kardiologijo in angiologijo
- Oddelek za intenzivno interno medicino
- Oddelek za hematologijo in hematološko onkologijo

Content (Syllabus outline):

A student carries out clinical practice at clinics – wards by choice. The following clinics – wards can be chosen:

- Ward for abdominal and general surgery
- Ward for vascular surgery
- Ward for traumatology
- Ward for thoracic surgery
- Ward for urology
- Ward for plastic and reconstructive surgery
- Ward for neurosurgery
- Ward for orthopedics
- Ward for cardiosurgery
- Ward for anesthesiology, intensive therapy and pain therapy
- Pediatric surgery
- Emergency Centre
- Ward for rheumatology
- Ward for nephrology
- Ward for dialysis
- Ward for gastroenterology
- Ward for cardiology and angiology
- Ward for intensive internal medicine
- Ward for hematology and hematologic oncology
- Ward for endocrinology and diabetology
- Ward for nuclear medicine
- Ward for pulmonary diseases

• Oddelek za endokrinologijo in diabetologijo • Oddelek za nuklearno medicino • Oddelek za pljučne bolezni • Internistična nujna pomoč • Internistični ambulantni center • Oddelek za otorinolaringologijo, cervikalno in maksilofacialno kirurgijo (ORL in MFK) • Oddelek za očne bolezni • Oddelek za nevrološke bolezni • Oddelek za nalezljive bolezni in vročinska stanja • Oddelek za kožne in spolne bolezni • Oddelek za psihiatrijo • Oddelek za onkologijo • Klinika za ginekologijo in perinatologijo • Urgentni Center Študent dela pod tutorstvom sobnega zdravnika v bolniških sobah klinike/oddelka. Opravlja anamnezo in ustrezen pregled bolnika (status) Glede na izbrano kliniko/oddelek. Sodeluje pri načrtovanju diagnostičnih preiskav, analizi izvidov in pri odločanju o zdravljenju na posamezni kliniki/oddelku. Študent aktivno sodeluje pri delu diplomiranih medicinskih sester, (odvzem krvi, dajanje injekci) Po potrebispremlja bolnika na predvidene preiskave v okviru klinike/oddelka. Sobni zdravnik in predstojnik oddelka s svojim podpisom zagotavljata, da je opravil vse predvidene obveznosti na kliniki/oddelku.	• Internistic emergency aid • Internistic outpatient centre • Ward for otorhinolaryngology, cervical and maxillofacial surgery • Ward for ophthalmology • Ward for neurological diseases • Ward for infectious diseases and heat conditions • Ward for skin and venereal diseases • Ward for psychiatry • Ward for oncology • Clinic for gynecology and perinatology • Emergency Centre A student works under tutorial supervision of a room physician in sickrooms of a clinic/ward. A student makes an anamnesis and appropriate check-up of a patient (status) according to a chosen clinic/ward. A student cooperates in the planning of diagnostic tests, analysis of results and in decision-making about treatment at an individual clinic/ward. A student cooperates actively in the work of registered nurses (taking of blood, giving injections). If necessary, a student accompanies a patient to foreseen tests within a clinic/ward. A room physician and head of a ward with their signatures ensure that a student completed all foreseen obligations at a clinic/ward.
Temeljni literatura in viri / Textbooks:	
So identični tistim pri rednih predmetih dodiplomskega študija, po posameznih strokah. Are identical to those in regular subjects of undergraduate study, according to individual disciplines.	
Cilji: Cilji predmeta so priprava študentov na samostojno delo v okviru določene stroke, ki se izvaja na ustreznih kliniki/oddleku Študent mora osvojiti pristop k bolniku, obladati mora odnos z njim in svojci obvladati mora anamnezo, pregledati bolnika, ovrednotiti diagnostične metode in predlagati ustrezno zdravljenje. Študent bo usposobljen obravnavati bolnika skladno z načeli medicinske etike in deontologije.	Objectives: The objective of a subject is a preparation of students for independent work within a certain discipline that is carried out in an appropriate clinic/ward. A student has to master a patient approach, a relationship with a patient, evaluate diagnostic methods and suggest appropriate treatment. A student will be qualified to treat a patient in accordance with the principles of medical ethics and deontology.
Predvideni študijski rezultati:	Intended learning outcomes:
Študent mora obvladati anamnezo, osnovno klinično preiskavo ustrezne stroke, določiti splošni klinični status, specialni klinični status, diagnostične in terapevtske metode (glej klinična znanja in metode).	A student has to master the making of anamnesis, basic clinical test of appropriate discipline, determine a general clinical status, a special clinical status, diagnostic and therapeutic methods (see clinical knowledge and methods).

Študent mora poznati diagnostične metode izbrane stroke. Naučiti se mora obravnavati in reševati probleme v realnem okolju izbrane stroke.

A student has to be acquainted with diagnostic methods of a chosen discipline. A student has to deal with and solve problems in a real environment of a chosen discipline.

Metode poučevanja in učenja:

Learning and teaching methods:

Praktično klinično delo

Naloge študenta: Skrbi za bolnike kliniki/oddelku od sprejema do odpusta.

Študent ob sprejemu napravi anamnezo in klinični pregled, predvidi potreben preiskave in zdravljenje v okviru izbrane stroke. V okviru kirurških strok skladno z navodili mentorja sodeluje tudi pri operativnem programu.

Študent se lahko pridruži svojemu mentorju tudi pri drugih opravilih (npr. v ambulanti).

Practical clinical work

Student tasks: Takes care of patients at a clinic/ward from admission until discharge.

A student, upon admission, makes an anamnesis and clinical check-up, foresees the necessary tests and treatment within a chosen discipline. Within surgical disciplines in accordance with the instructions of a mentor a student cooperates also in the operative programme.

A student may join his/her mentor also in other tasks (e.g. in an outpatient clinic).

Načini ocenjevanja:

Delež (v %) /
Weight (in %)

Assessment:

**POGOJI ZA PRISTOP K POSAMEZNEMU
PREVERJANJU ZNANJA**

Opravljenе obveznosti na kliniki/oddelku

100 %

**REQUIREMENTS FOR ACCESS TO INDIVIDUAL
KNOWLEDGE CHECKING:**

Completed obligations at a clinic/ward.
