Languages:

Vaje / Tutorial:

Slovenščina/Slovene

Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:

Prerequisites:

Vsebina:

Osnove zgradbe in delovanja mišično skeletnega sistema  
Osnove kliničnega pregleda  
Osnove stopenjske diagnostike pri ortopedskem bolniku  
Zdravljenje ortopedskih bolezni  
Prirojene in razvojne ortopedske bolezni  
Presnovne bolezni kosti  
Drža in hoja  
Vnetne bolezni gibal  
Degenerativne bolezni gibal  
Okvare živčno mišičnega sistema  
Tumorji gibal  
Motnje v krvnem obtoku  
Stanja po poškodbah  
Nujna stanja v ortopediji  
Šprtne poškodbe  
Specialni del: hrbtenica, kolk, koleno, gleženj, stopalo, rama, komolec, zapestje, roka

Content (Syllabus outline):

Basics of structure and function of the musculoskeletal system  
Basics methods of clinical examinations  
Basics of stage diagnostics in orthopaedic patient  
Treatment of orthopaedic diseases  
Congenital and developmental orthopaedic diseases  
Metabolic bone diseases  
Posture and walking  
Infectious diseases of locomotor system  
Degenerative diseases of locomotor system  
Neuromuscular disorders  
Tumors of locomotor system  
Blood flow disorders  
Posttraumatic disorders  
Emergency situations in orthopaedics  
Sports injuries  
Special part: spine, hip, knee, ankle, foot, shoulder, elbow, wrist, hand

**Cilji in kompetence:**

Cilj predmeta je usposobiti študente za samostojno delo z ortopedskimi bolniki.

Nivo predavanj, seminarjev in vaj bo zasnovan na realnih kliničnih primerih, s poudarkom na klinični uporabi teoretičnega znanja.

Izvedbo vaj bo potekala v tedenskih sklopih (3x5 ur).

Vsaki skupini bo dodeljen stalni mentor. Pouk se bo pričel s seminarji, ki jih bodo pripravili študenti in ki bodo obravnavali posamezno vrsto problematike, za katero smatramo, da jo študenti morajo obvladati.

Vsebina je zasovana topografsko:

-hrbtanica

-kolk

-koleno

-rama

-nujna stanja

Študenti bodo najprej pripravili pregledni seminar o omenjeni problematiki (1 ura). Sledil bo prikaz kliničnih primerov (pacientov). Študenti bodo opravili klinični pregled in anamnezo. Sledila bo diskusija z mentorjem, nato pa še prikaz pravilnega kliničnega pregleda, ter vaje le tega, ki jih bodo študenti opravili medsebojno (3 ure).

Cilj vaj in seminarjev je prikaz najpogostejših vrst patologije in obvladanje najpomembnejših diagnostičnih algoritmov in kliničnih testov za posamezne sklepe.

**Objectives and competences:**

The objective of the course is to prepare students for independent work with orthopedic patients.

The level of education will not be at sub specialist level.

Instead it will be organized on real clinical cases with focus on clinical applications of theoretical knowledge.

Clinical exercises implementation will be held in weekly shifts (3x5 hours), with permanent mentors.

Course will start with seminar, prepared by students themselves, with topics, which must be mastered for any medical student. Contents will be organized topographically:

-spine

-hip

knee

-shoulder

-orthopedic emergency

After seminars held by students (1 hour), mentors will demonstrate real clinical cases concerning daily topics. Students will take history of the patient, and also perform clinical examination. Discussion with mentor will follow, as well as demonstration or correct clinical examination, with practical work among students themselves (3 hours).

The goal of seminars and clinical exercises is demonstration of most important clinical algorithms and clinical test in orthopedic surgery.

**Predvideni študijski rezultati:**

Znanje in razumevanje: po zaključku tega predmeta bo študent/-ka sposoben/-a samostojno pristopiti k bolniku, se ustrezno sporazumevati z njim in s svojci, znal/-a bo vzeti anamnezo, pregledati bolnika in opredeliti predvidene diagnostične preiskave.

**Intended learning outcomes:**

Knowledge and Understanding: On completion of this course the student will be able to approach the patient independently, and communicate accordingly with the patient and his family members, he or she will take the history of illness, examine the patient, and evaluate the diagnostic methods to be applied.

2023/2024

Prenesljive/ključne spretnosti in drugi atributi:

Študent/-ka se bo naučil/-a praktičnih veščin, potrebnih za delo z bolniki: klinični pregled in ocena ligamentarnega aparata sklepov, osnovni pregled hrbtenice vključno z osnovnim nevrološkim pregledom, osnovni postopki pri obravnavi urgentnih ortopedskih pacientov, pisanje receptov.

Transferable/Key Skills and other attributes: The student will acquire the necessary practical knowledge: clinical examination and evaluation of joint's ligament system, basic spine examination including basic neurological evaluation, treatment of urgent orthopaedic patients, making prescriptions.

#### Metode poučevanja in učenja:

Predavanja  
Seminarji (obvezna 80 % prisotnost )  
Klinične vaje (obvezna 80 % prisotnost )

#### Learning and teaching methods:

Lectures  
Seminars (obligatory)  
Clinical work with patients (obligatory)

#### Načini ocenjevanja:

Delež (v %) /  
Weight (in %)

#### Assessment:

Način (pisni izpit, ustno izpraševanje, naloge, projekt):

Seminar (opravljen seminar je pogoj za pristop k pisnemu izpitu)

Praktični izpit

Pisni izpit

30

70

Skupna ocena:

91–100 % = odlično (10)

81–90 % = prav dobro (9)

71–80 % = prav dobro (8)

61–70 % = dobro (7)

51–60 % = zadostno (6)

ŠTUDIJSKE OBVEZNOSTI ŠTUDENTOV

Predavanja

Seminarji (obvezna 80 % prisotnost )

Klinične vaje (obvezna 80 % prisotnost )

POGOJI ZA PRISTOP K POSAMEZNEMU

PREVERJANJU ZNANJA

Opravljen seminar in praktični izpit sta pogoja za pristop k pisnemu izpitu

Type (examination, oral, coursework, project):

Coursework (completed coursework is a condition for entering the written examination)

Practical examination

Written examination

Total grade:

91 – 100% = excellent (10)

81 – 90% = very good(9)

71 – 80% = very good (8)

61 – 70% = good (7)

51 – 60% = satisfactory (6)

ACADEMIC OBLIGATIONS OF STUDENTS

Lectures

Coursework (80% attendance obligatory)

Clinical practice (80% attendance obligatory)

REQUIREMENTS FOR ACCESS TO INDIVIDUAL KNOWLEDGE CHECKING

Completed coursework is a requirement for access to the written exam
