Študent razširjeno in poglobljeno proučuje izbrane teme iz celotnega obsega vsebin izbranega predmeta, na osnovi svojega že pridobljenega znanja. Cilj je priprava študenta na samostojno obravnavo in predstavitev posameznih tem na osnovi tekočih dogajanj v klinični praksi.				The student studies in detail chosen specific topics concerning clinical anatomy, based on his already achieved knowledge in anatomy. The aim is to prepare a student for individual treatment and presentation of certain topics on the basis of current events in clinical practice.		
Predvideni študijski rezultati:				Intended learning outcomes:
