

UČNI NAČRT PREDMETA / COURSE SYLLABUS						
Ime predmeta:	Dermatovenerologija					
Course title:	Dermatovenerology					
Študijski program in stopnja Study programme and cycle		Študijska smer Study option		Letnik Year of study	Semester Semester	
Splošna medicina, enovit magistrski študijski program				Peti	9.	
General medicine, Uniform master's degree study program				Fifth	9th	
Vrsta predmeta (obvezni ali izbirni) / Course type (compulsory or elective)		obvezni compulsory				
Univerzitetna koda predmeta / University course code: _____						
Predavanja Lectures	Seminar Seminar	Vaje Tutorial	Klinične vaje Clinical training	Druge oblike študija Other forms of study	Samost. delo Individual work	ECTS
15	30	AV LV RV	15		60	4
Nosilec predmeta / Course coordinator:		izr. prof. dr. Jovan Miljković				
Jeziki /Languages:	Predavanja / Lectures: slovenski/slovene Vaje / Tutorial: slovenski/slovene					
Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:		Prerequisites for enrolling in the course or for performing study obligations:				
<p>Vsebina (kratek pregled učnega načrta):</p> <p>Pomen kožnih bolezni Zgradba, delovanje in imunološke funkcije kože Kožne vzbrsti (semiotika) Ugotavljanje diagnoze kožnih bolezni Dermatomikoze, bakterijske infekcije kože, virusne kožne bolezni, zoonoze Eritematoskvamozne dermatoze Reaktivne in alergijske kožne bolezni Urtikarije in medikamentozni eksantmi Bulozne bolezni Bolezni vezivnega tkiva Fizikalne in kemične okvare kože Presnovne kožne bolezni Bolezni perifernega ožilja Bolezni keratinizacije in genodermatoze Motnje pigmentacije Bolezni lojnic, znojnic, las in nohtov</p>						
<p>Content (syllabus outline):</p> <p>The importance of skin diseases Structure, physiology and immunology of the skin Types of skin lesions The principles of dermatologic diagnostic procedures Fungal skin diseases, Bacterial skin diseases, Viral skin diseases, Zoonoses. Erythematous squamous diseases Allergy and reactive skin diseases Blistering diseases Connective tissue diseases Urticaria and reactions to medications Diseases caused by environmental exposure Metabolic skin manifestations Diseases of blood vessels Disorders of keratinization and genodermatoses Disorders of pigmentation Diseases of hair, nails, sebaceous and sweat glands.</p>						

Kožni tumorji Kožni limfomi in psevdolimfomi Spolno prenosljive okužbe Zdravljenje kožnih bolezni in spolno prenosljivih okužb	Skin tumors Lymphoproliferative disorders Sexually transmitted infections Treatment modalities of skin diseases and sexually transmitted infections
---	--

Temeljni literatura in viri / Reading materials:

- A. Kansky, J. Miljković in M. Dolenc-Voljč. Kožne in spolne bolezni, III dop. izdaja. Medicinska fakulteta Univerze v Mariboru, Medicinska fakulteta Univerze v Ljubljani in Združenje slovenskih dermatovenerologov, Maribor-Ljubljana, 2017
- J. Bologna, J. Schaffer, L.Cerroni .Dermatology: 2-Volume Set, 4th sd. Elsevier 2017
- Rook's Textbook of dermatology, 9th ed. Blackwell Publishing company 2016

Cilji in kompetence:

Cilj predmeta je pripraviti študenta za samostojno delo z dermatološkimi bolniki.

Objectives and competences:

The objective is to prepare the student to work independently with dermatological patients.

Predvideni študijski rezultati:

Znanje in razumevanje: diagnostičnih in terapevtskih metod pri prepoznavanju kožnih in spolnih bolezni in ustrezno zdravljenje bolnikov.

Prenesljive/ključne spremnosti in drugi atributi:

Študent se bo naučil osnovnih diagnostičnih in terapevtskih postopkov v dermatologiji:

- dajanje injekcij
- jemanje vzorcev za mikološko, bakteriološko in histopatološko preiskavo
- krioterapija
- elektrokoagulacija

Intended learning outcomes:

Knowledge and Understanding: of diagnostic and therapeutic methods in diagnosis and in the treatment of patients with skin diseases.

Transferable/Key Skills and other attributes:

The student will be learning the basic diagnostic and therapeutic procedures in dermatology:

- giving injections
- mycological and bacteriological examination
- skin biopsy
- cryotherapy
- electrosurgery

Metode poučevanja in učenja:

- predavanja
- seminarji
- vaje

Learning and teaching methods:

- lectures
- seminars
- practical training

Delež (v %) /

Načini ocenjevanja:

ŠTUDIJSKE OBVEZNOSTI ŠTUDENTA
Študent mora biti prisoten vsaj na 80 % predavanj, 80 % seminarjev in na vseh vajah. Prisotnost na predavanjih, seminarjih in vajah se preverja s podpisom študenta.

Način ocenjevanja:

opravljen seminar, - sodelovanje na predavanjih in vajah

-izpit: pisni+ praktični +- izpit - teoretični-ustni

Pogoj za pristop k izpitu:

opravljen pisni izpit (>kot 50 točk)

Share (in %)

30

70

Assessment methods:

OBLIGATIONS OF THE STUDENT

The student must be present at least 80% of the lectures, 80% of the seminars and all exercises. The attendance at lectures, seminars and exercises is checked by the student's signature. Method of evaluation:

- successfully completed seminar, participation in lectures and exercises
- written exam + practical + theoretical-oral Final examination: eligible to enter after completion of seminars and clinical work

		Requirement to enter the exam: successfully passed written exam (> 50 points)
