

<b>UČNI NAČRT PREDMETA / COURSE SYLLABUS</b>							
<b>Ime predmeta:</b>	<b>Klinična farmakologija</b>						
<b>Course title:</b>	<b>Clinical Pharmacology</b>						
<b>Študijski program in stopnja</b> <b>Study programme and cycle</b>		<b>Študijska smer</b> <b>Study option</b>	<b>Letnik</b> <b>Year of study</b>				
Splošna medicina, enovit magistrski študijski program General medicine, Uniform master's degree study program			Peti Fifth				
			9. 9th				
<b>Vrsta predmeta (obvezni ali izbirni) /</b> <b>Course type (compulsory or elective)</b>		obvezni compulsory					
<b>Univerzitetna koda predmeta / University course code:</b>							
<b>Predavanja</b> <b>Lectures</b>	<b>Seminar</b> <b>Seminar</b>	<b>Vaje</b> <b>Tutorial</b>	<b>Klinične vaje</b> <b>Clinical training</b>	<b>Druge oblike študija</b> <b>Other forms of study</b>	<b>Samost. delo</b> <b>Individual work</b>	<b>ECTS</b>	
15	30	AV LV RV			45	3	
<b>Nosilec predmeta / Course coordinator:</b>		<b>izr. prof. dr. Sebastjan Bevc</b>					
<b>Jeziki /Languages:</b>	<b>slovenski/slovene</b>						
	<b>slovenski/slovene</b>						
<b>Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:</b>		<b>Prerequisites for enrolling in the course or for performing study obligations:</b>					
Pogoj za opravljanje izpita je tudi opravljen izpit iz Farmakologije s toksikologijo iz 2. letnika.		It is necessary to pass the exam of Pharmacology with toxicology in the 2nd year before entering the examination.					
<b>Vsebina (kratki pregled učnega načrta):</b>							
<ul style="list-style-type: none"> <li>• zakon in predpisi v zvezi z zdravili v Sloveniji;</li> <li>• razvojna pot zdravila in klinične raziskave;</li> <li>• klinično farmakodinamika in farmakokinetika;</li> <li>• socialna farmakologija in farmakoekonomika;</li> <li>• stranski učinki zdravil in interakcije med zdravili;</li> <li>• racionalna raba antibiotikov;</li> <li>• zdravila v nosečnosti in med dojenjem;</li> <li>• farmakoterapija pri otroku in mladostniku;</li> <li>• posebnosti farmakoterapije v starosti;</li> <li>• farmakoterapija pri hudi bolezni jeter;</li> <li>• farmakoterapija pri hudo zmanjšani funkciji jeter in ledvic;</li> <li>• etika v klinični farmakologiji;</li> </ul>							
<b>Content (syllabus outline):</b>							
<ul style="list-style-type: none"> <li>• Slovenian law and regulation of drug usage;</li> <li>• development of drug and clinical research;</li> <li>• clinical pharmacodynamics and pharmacokinetics;</li> <li>• social pharmacology and pharmacoconomics;</li> <li>• adverse effects of drugs and drug interactions;</li> <li>• rational use of antibiotics;</li> <li>• drugs during pregnancy and lactation;</li> <li>• pharmacotherapy in children and teenagers;</li> <li>• pharmacotherapy in geriatrics;</li> <li>• pharmacotherapy in severe liver diseases;</li> <li>• pharmacotherapy in renal failure</li> <li>• ethics in pharmacotherapy;</li> <li>• drug prescription and distribution;</li> </ul>							

- osnove predpisovanja zdravil, režim hranja in izdajanja;
- farmakoterapija arterijske hipertenzije;
- zdravljenje popuščanja srca;
- farmakoterapija bolečine;
- farmakoterapija anksioznosti in depresije;
- preprečevanje bolezni srca in žilja z zdravili;
- farmakoterapija ulkusne in refluxne bolezni;
- farmakoterapija hemostaze in anemij;
- klinični pregled antibiotikov po skupinah;
- farmakoterapija osteoporoze;
- farmakoterapija najpogostejših virusnih infekcij;
- farmakoterapija angine pektoris in miokardnega infarkta;
- farmakoterapija kronične obstruktivne bolezni pljuč;
- antibiotično zdravljenje bakterijskih infekcij na spodnjih dihalih;
- nemedicinska uporaba zdravil in kemijskih učinkovin.

- pharmacotherapy of arterial hypertension;
- management of heart failure;
- pharmacotherapy of pain;
- pharmacotherapy of anxiety and depression;
- prevention of cardiovascular diseases;
- pharmacotherapy of ulcer and reflux diseases;
- pharmacotherapy of coagulation and anemia;
- overview of antibiotic groups;
- pharmacotherapy of osteoporosis;
- pharmacotherapy of viral diseases;
- pharmacotherapy of angina pectoris and myocardial infarction;
- pharmacotherapy of chronic obstructive pulmonary disease;
- antibiotic treatment of lower respiratory tract infections;
- nonmedical use of drugs and chemical substances.

#### **Temeljni literatura in viri / Reading materials:**

##### **Temeljna literatura:**

- Dipiro JT, et all (eds). Pharmacotherapy, A Pathophysiologic Approach 7th ed. Mc Graw-Hill 2008. (or the latest edition)
- - Rang HP, et all. Pharmacology. 7th ed. Churchill Livingstone; 2012. (or the latest edition)

##### **Dodatna literatura:**

- Carruthers SG, et all (eds). Clinical Pharmacology 4th ed. Mc Graw-Hill 2000.
- Bennett PN, Brown MJ (eds). Clinical pharmacology. 10 th ed. Edinburgh: Churchill Livingstone; 2008.
- Francetić I, Vitezić D (eds). Osnove kliničke farmakologije. Zagreb: Medicinska naklada; 2007.
- Brunton LL, et all (eds). The Pharmacological Basis of Therapeutics. 12 th ed. Mc Graw-Hill 2011.
- Zakon o zdravilih. Ur list RS št. 31, 24.3.2006.

#### **Cilji in kompetence:**

Poznavanje predpisov farmakoterapije in kliničnega preizkušanja zdravil v Sloveniji. Študentje bodo poznali osnovne principe farmakoterapije najpogostejših bolezni v skladu s principi na izsledkih temelječe farmakoterapije. Znali bodo predpisovati zdravila, skladno s strokovno doktrino in predpisi.

#### **Objectives and competences:**

Knowledge of Slovenian regulations on pharmacotherapy and clinical studies with drugs. Students will be able to use principles of pharmacotherapy in most frequent diseases according to evidence-based pharmacotherapy. Students will be able to prescribe drugs in accordance with scientific principles and regulations.

#### **Predvideni študijski rezultati:**

##### Znanje in razumevanje:

Znali bodo uporabljati zdravila pri najpogostejših bolezenskih stanjih v ambulanti in med hospitalizacijo.

#### **Intended learning outcomes:**

##### Knowledge and understanding:

They will be able to use drugs in most frequent diseases among out-patients and during hospitalization. They will understand mechanisms of the drugs and relation between their effectiveness and safety.

Razumeli bodo mehanizme delovanja zdravil in razmerje med njihovo učinkovitostjo in varnostjo.
<u>Prenesljive/ključne spremnosti in drugi atributi:</u>
Obvladali bodo osnove na izsledkih temelječe farmakoterapije in poznali mednarodne in domače smernice za najpogosteje bolezni.

Transferable/Key skills and other attributes:  
They will use principles of evidence-based pharmacotherapy and they will know international and Slovene guidelines for the most frequent diseases.

#### Metode poučevanja in učenja:

##### Predavanja:

Splošna poglavja z navodili za pripravo seminarjev in individualno delo.

##### Seminarji:

Posebna poglavja farmakoterapije v različnih starostnih in življenjskih obdobjih ter ob najpogostejših bolezenskih stanjih.

##### Konzultacije:

Priprava seminarjev in druge.

Individualno delo.

#### Learning and teaching methods:

Approved seminar

Written examination

Oral examination

#### REQUIREMENTS FOR ACCESS TO INDIVIDUAL KNOWLEDGE CHECKING:

Eligible to enter written examination after completion of seminar.

Eligible to enter oral examination after completion of written examination.

Delež (v %) /

Share (in %)

#### Assessment methods:

Opravljen seminar	<b>25</b>	Approved seminar
Pisni izpit	<b>40</b>	Written examination
Ustni izpit	<b>35</b>	Oral examination
<b>POGOJ ZA PRISTOP K IZPITU:</b>		
Opravljen seminar je pogoj za pristop k pisnemu izpitu.		
Opravljen pisni izpit je pogoj za pristop k ustnem izpitu.
