

UČNI NAČRT PREDMETA / SUBJECT SPECIFICATION

Predmet:	Izbrane vsebine in novosti v interni medicini
Subject Title:	Selected topics and novelties in internal medicine

Študijski program Study programme	Študijska smer Study field	Letnik Year	Semester Semester
Splošna medicina General medicine – EMŠP		3, 6	5, 11

Univerzitetna koda predmeta / University subject code:

Predavanja Lectures	Seminar Seminar	Sem. vaje Tutorial	Lab. vaje Labor work	Samost. delo Individ. work	ECTS
5	40			45	3

Nosilec predmeta / Lecturer:

Jeziki / Languages: **Predavanja / Lecture:**
Vaje / Tutorial:

Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:

Prerequisites:

Vsebina:

Glede na želje študenta se lahko poglobljena znanja pridobivajo na vseh področjih interne medicine: intenzivne interne medicine, internističnih urgentnih stanj, sodobne kardiološke diagnostike, UZ preiskave srca, cikloergometrije, koronarografije, sodobne gastroenterološke diagnostike, klinične imunologije, hematološke onkologije, sodobnega zdravljenja diabetesa in endokrinih bolezni, sodobnih oblik nadomestnega zdravljenja ledvične bolezni kot so hemodilaza, peritonealna dializa, transplantacija, ledvične biopsije, ...

Content (Syllabus outline):

Regarding the students wishes, in-depth knowledge can be acquired in the following fields of internal medicine: intensive care of internal medicine, emergency situations, modern cardiac procedures like ultrasound, cycloergometry, coronarography, gastroenterological diagnostics, clinical immunology, oncology, modern treatment of diabetes mellitus and metabolic disorders, modern treatment methods in nephrology such as hemodialysis, peritoneal dialysis, kidney biopsies,...

Temeljni literatura in viri / Textbooks:

1. A. Kocijančič: Klinična preiskava. Ljubljana: Littera picta, 2000.
2. J. Thomas, T. Monaghan (eds): Oxford Handbook of Clinical Examination and Practical Skills. Oxford: Oxford University Press, 2007.
3. M. Košnik et al (eds): Interna medicina. Ljubljana: Littera picta, 2011.
4. D. Longo et al (eds): Harrison's Principles of Internal Medicine, 18th edition. New York: McGraw-Hill, 2011.
5. P.J. Kumar, M.L. Clark (eds): Clinical Medicine, 7th edition. Edinburgh: Saunders Elsevier, 2009.

Cilji:

Pridobitev poglobljenih znanj v posameznih področjih v interni medicini v odvisnosti od želja študenta.

Objectives:

To acquire extended knowledge in therapeutics and diagnostic procedures in internal medicine.

Predvideni študijski rezultati:

Intended learning outcomes:

Znanje in razumevanje:
Poglobljeno znanje o interni medicini.

Knowledge and comprehension of:
Extended knowledge in internal medicine

2018/2019

Prenesljive/ključne spretnosti in drugi atributi:
Praktično klinično znanje in spretnosti.

Transferable/Key Skills and other attributes:
Practical clinical knowledge and skills

Metode poučevanja in učenja:

Praktično klinično delo pod vodstvom tutorja.

Learning and teaching methods:

Practical clinical work under tutor's supervision.

Načini ocenjevanja:	Delež (v %) / Weight (in %)	Assessment:
<p>Način (pisni izpit, ustno izpraševanje, naloge, projekt) Seminarska naloga</p> <p>ŠTUDIJSKE OBVEZNOSTI ŠTUDENTOV: Izbirni predmet pomeni praktično delo na internističnih oddelkih različnih bolnišnic - načelno v času počitnic - v obsegu 3 x 8 ur. Vsak študent se javi pri predstojniku oddelka, da se dogovori glede točne izvedbe (datumi). V času 24-urnega praktičnega dela študent podrobneje obdelava enega konkretnega bolnika z določeno diagnozo in ga na koncu predstavi nosilki predmeta – v obliki seminarja: anamneza, status, diferencialna diagnoza, diagnostične metode, zdravljenje. Predstavitev poda tudi v pisni obliki v obsegu vsaj 1 A4 strani v računalniškem sistemu Moodle – to je priloga k prijavnici. Datumi ustnih predstavitev bodo objavljeni v okviru izpitnih rokov.</p> <p>V okviru predmeta študent: -Dela v bolniški sobi s sobnim zdravnikom -Dela v sprejemnem bloku -Spremlja bolnika na preiskave -Sodeluje pri pregledovanju in pregleduje bolnika -Sodeluje pri načrtovanju diagnostičnih preiskav -Sodeluje pri oceni izvidov -Sodeluje pri načrtovanju zdravljenja -Sodeluje na viziti -Sodeluje pri delu med. sestre - dajanje injekcij, infuzij, odvzem krvi, snemanje EKG</p> <p>POGOJI ZA PRISTOP K POSAMEZNEMU PREVERJANJU ZNANJA: K izpitu se lahko prijavi študent, ki je opravil predpisane obveznosti: - opravil prakso na oddelku, kamor je bil razporejen - pripravil in oddal s strani neposrednega mentorja pregledano in potrjeno seminarsko nalogo - seminar zagovarjal pri nosilki predmeta.</p> <p>Izbirni predmet se ocenjuje z oceno po ocenjevalni lestvici: - 56 % - 65 % 6 - 66 % - 75 % 7 - 76 % - 85 % 8 - 86 % - 95 % 9</p>	<p>100 %</p>	<p>Type (written and oral examinations, assignments, project work): Seminar paper</p> <p>ACADEMIC OBLIGATIONS OF STUDENTS: Elective subject means practical work in the internal wards of various hospitals – in principle during vacations – in the extent of 3 x 8 hours. Every student reports to the head of a ward to come to terms regarding the exact implementation (dates). Within the 24-hour practical work a student treats in detail one concrete patient with a certain diagnosis and at the end presents the patient to the subject holder – in the form of a seminar: anamnesis, status, differential diagnosis, diagnostic methods, treatment. The presentation is handed in also in a written form in the extent of at least 1 A4 sheet of paper in the computer system Moodle – that is an attachment to the application form. Dates of oral presentations will be published within the examination dates.</p> <p>Within the subject a student: -works in a sickroom with a room physician -works in a receiving block -accompanies a patient to medical examinations -cooperates in medical screening and examines the patient -cooperates in planning the diagnostic tests -cooperates in assessment of medical reports -cooperates in planning the treatment -cooperates during the visitation -cooperates during nurse's work – giving injections, infusion, taking of blood, ECG</p> <p>REQUIREMENTS OF ACCESS TO INDIVIDUAL KNOWLEDGE CHECKING: A student can enter the exam if he/she completed the prescribed obligations: - a student completed practice in the ward where he/she was allocated -a student prepared and handed in the seminar assignment which was reviewed and confirmed by an immediate mentor -a student defended the seminar in front of the subject holder</p> <p>The elective subject is marked with a mark according to a grading scale: -56% - 65% 6 -66% - 75% 7</p>

- 96 % - 100 % 10		-76% - 85% 8 -86% - 95% 9 -96% - 100% 10
