

UČNI NAČRT PREDMETA / COURSE SYLLABUS

Ime predmeta:	Celostni pristop k reševanju zdravstvenih problemov
Course title:	Comprehensive Approach Towards Health Problems

Študijski program in stopnja Study programme and cycle	Študijska smer Study option	Letnik Year of study	Semester Semester
Biomedicinska tehnologija/3. stopnja		2	3 ali 4
Biomedical Technology/3rd Degree			

Vrsta predmeta (obvezni ali izbirni) / Course type (compulsory or elective)	Izbirni Elective
--	---------------------

Univerzitetna koda predmeta / University course code:	
---	--

Predavanja Lectures	Seminar Seminar	Vaje Tutorial	Klinične vaje Clinical training	Druge oblike študija Other forms of study	Samost. delo Individual work	ECTS
15	30	AV LV RV			135	6

Nosilec predmeta / Course coordinator:	Izr. prof. dr. Zalika Klemenc Ketiš
---	-------------------------------------

Jeziki /Languages:	Predavanja / Lectures: Slovenčina/Slovene
	Vaje / Tutorial: -

Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:	Prerequisites for enrolling in the course or for performing study obligations:

Vsebina (kratek pregled učnega načrta):	Content (syllabus outline):
1. Oblike in nivoji obravnave zdravstvenih problemov. 2. Obravnavanje zdravstvenih problemov v družinski medicini. 3. Posebnosti dela v družinski medicini. 4. Vodenje primarne zdravstvene oskrbe. 5. Vosebno usmerjena zdravstvena oskrba. 6. Specifičen način reševanja zdravstvenih problemov. 7. Celosten pristop. 8. Usmerjenost v skupnost. 9. Celovito oblikovanje modelov. 10. Vodenje bolnika upoštevajoč celosten pristop v družinski medicini (prikaz primerov) 11. Pomen timskega dela 12. Kultura varnosti	1. Forms and levels of health problems management. 2. Management of health problems in family medicine. 3. Specific skills in family medicine. 4. Primary care management. 5. Person-centered care. 6. Specific problem solving skills. 7. Comprehensive approach. 8. Community orientation. 9. Holistic approach. 10. Patient's management taking into account holistic approach in family medicine (case presentation) 11. Importance of team work 12. Safety culture

Cilji in kompetence:

Opredeliti celosten pristop k reševanju zdravstvenih problemov in opredeliti vlogo zdravnika družinske medicine pri zagotavljanju celostnega pristopa k reševanju zdravstvenih problemov v luči evropske definicije družinske medicine.

Predvideni študijski rezultati:**Znanje in razumevanje:**

Slušatelji se bodo ob koncu modula:

1. Razumeli potrebo po stopenjskem pristopu k obravnavi zdravstvenih problemov.
2. Spoznali načela obravnave zdravstvenih problemov na primarnem nivoju zdravstvenega varstva.
3. Znali razlikovati med pristopom obravnave med primarnim in sekundarnim nivojem obravnave.
4. Razumeli pojme kot so odprto čakanje, zdravilni poizkus in odvrnljivo nevaren potek.
5. Razumeli širino akutnih stanj v družinski medicini
6. Na primeru uporabili model celostnega pristopa k bolniku.
7. Znati se ustrezno sporazumevati z bolnikom, da preprečimo nesoglasje
8. Znati znotraj obstoječega sistema zdravstvenega varstva bolnika obravnavati v skladu z načeli družinske medicine
9. Razložili pomen timskega dela v družinski medicini
10. Razumeli kulturo varnosti in njen pomen za celostni pristop v družinski medicini

Prenosljive/ključne spremnosti in drugi atributi:

- Postopnost in konsenzualnost
- Sodelovanje med različnimi strokovnjaki in nivoji
- Metode načrtovanja zdravstvene oskrbe
- Metode ocenjevanja kakovosti dela, zadovoljstva in obremenjenosti

Objectives and competences:

Comprehensive approach for management of health problems and determinate the position of family physician in assurance of comprehensive approach toward health problems in according with European definition of family medicine.

Intended learning outcomes:**Knowledge and understanding:**

- By the end of the course participants will be able to
1. Understand the necessary of step by step approach to health problems management.
 2. Know the rules of primary care management.
 3. Know the differences between primary and secondary care level management.
 4. Understand the meaning of watchful waiting, treatment experiment and potential dangerous course.
 5. Understand the wide spectre of acute cases in primary care.
 6. Be able to use the holistic approach.
 7. Be able to communicate well to overcome disagreement.
 8. In a present health care system manage patient taking into account the principals of family medicine.
 9. Explain the importance of team work in family medicine
 10. Understand the safety culture and its meaning for a comprehensive approach in family medicine

Transferable/key competences and other abilities:

- Step by step and consensual approach
- Collaboration between different professions and levels
- Methods for quality assessment, patient satisfaction and workload evaluation

<ul style="list-style-type: none"> • Metode za izvajanje celovite zdravstvene oskrbe bolnikov • Metode racionalna raba sredstev in virov 	<ul style="list-style-type: none"> • Methods for patient involvement and empowerment • Methods of holistic primary care • Methods for rational use of resources
--	--

Metode poučevanja in učenja:

Learning and teaching methods:

Predavanja	Lectures
Seminarji	Seminars
Samostojno delo	Individual work

Načini ocenjevanja:

Delež (v %) / Assessment methods:

Share (in %)

Način (pisni izpit, ustno izpraševanje, naloge, projekt)		Method (written or oral exam, coursework, project):
Izdelava seminarske naloge z prikazom razumevanja celostnega pristopa k obravnavi bolnika.	50 %	Seminar work from the application of new knowledge.
Zaključni projekt z ustnim zagovorom opravljenega dela.	50 %	Project based on the application of new knowledge – with oral presentation.
